EROAD

EROAD AND FOURKITES INTEGRATION

Improve on-time performance

Running a trucking company is tough, especially in today's uncertain economy. On top of this, many carriers are concerned about meeting rapidly rising customer expectations, tighter delivery windows and being able to provide an immediate response to issues as soon as they arise.

EROAD's real-time location tracking integration into FourKites enables you to share your truck location with your shipper, and let them know that their freight is in good hands the whole time. You'll be able to plan in advance truck arrivals, streamline loading and unloading, reduce wait times, and get your truck back on the road efficiently.

With this integration you can lower your operating costs, improve on-time performance, and strengthen your customer relationships.
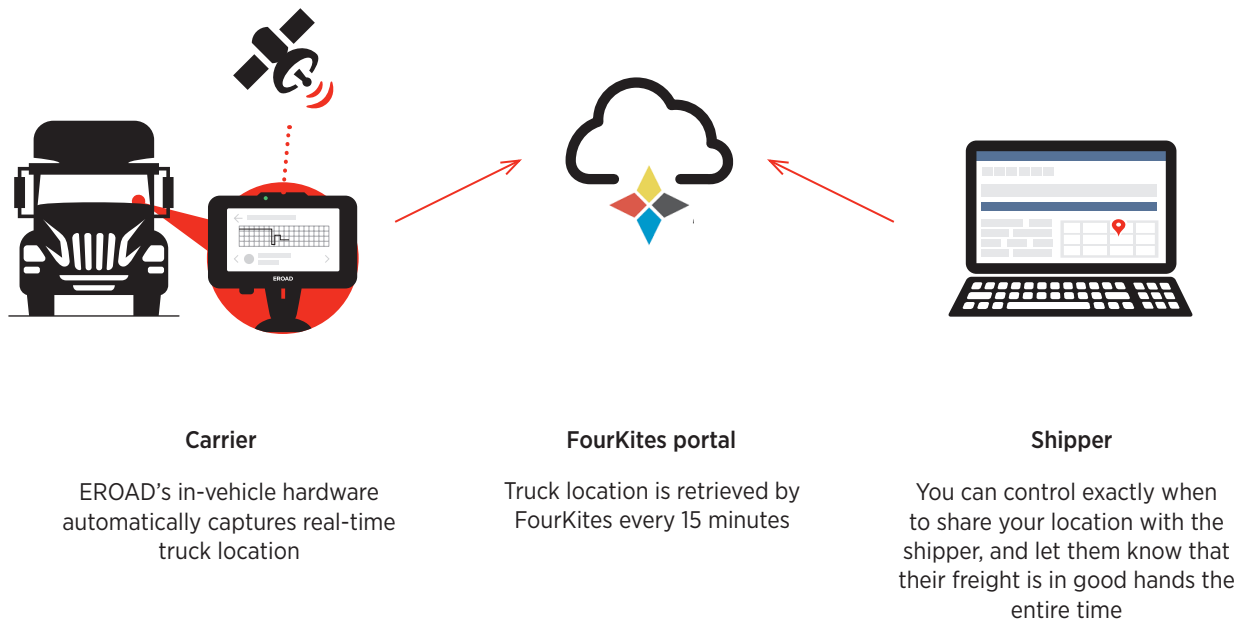

KEY BENEFITS

Improve safety
Increases driver safety by reducing the number of phone calls, texts, and emails to and from drivers

Delight your customers
Improve customer service by providing easy access to the real-time status of your load and truck

Carrier

EROAD's in-vehicle hardware automatically captures real-time truck location

FourKites portal

Truck location is retrieved by FourKites every 15 minutes

Shipper

You can control exactly when to share your location with the shipper, and let them know that their freight is in good hands the entire time

KEY FEATURES

› Comprehensive vehicle data is sampled by EROAD's in-vehicle hardware every second

› EROAD hardware has been independently verified to accurately record location and distance at a tax audit level

› Real-time location of trucks is retrieved by FourKites every 15 minutes

› Predictive analytics provided by FourKites gives the shipper the most accurate ETA, delay alerts, and pickup and delivery confirmations

EROAD

FourKites

One end-to-end solution

EROAD puts everything at your fingertips, saving you time and effort at every turn. You can rely on EROAD's powerful set of tools to take control of your tax, compliance, and operational performance – including an FMCSA - registered and third-party verified ELD, creating a safer work environment for your drivers, and making it easier and faster to accurately track, manage, and share hours of service.

EROAD. Confidence in every mile.
