# EROAD Clarity Edge

## Empower safer driving

Clarity Edge is the next-generation AI-powered dash camera designed to enhance driver performance proactively. This in-cab camera uses advanced artificial intelligence to detect unsafe and distracted driving behaviors, providing immediate, automated voice coaching to promote safer driving habits in real-time. With Clarity Edge, you gain the crucial visibility needed to support safe driving practices, protect your drivers, and safeguard your business.

### KEY BENEFITS FOR YOUR DRIVERS

Optimize driver safety with real-time, automated voice coaching.

#### Proactive Safety

Powerful AI models detect unsafe and distracted driving, with optional real-time voice alerts and escalations.

#### Customize Alerts

Select which events trigger an in-cab voice alerts for impactful real-time coaching and reduced distraction.

#### Categorize Behaviors

Automatically tag video clips when specific behaviors are detected, making it easy to quickly see what's happening.

### KEY BENEFITS FOR YOUR BUSINESS

Boost performance and protect your business with enhanced fleet visibility.

#### Improve Performance

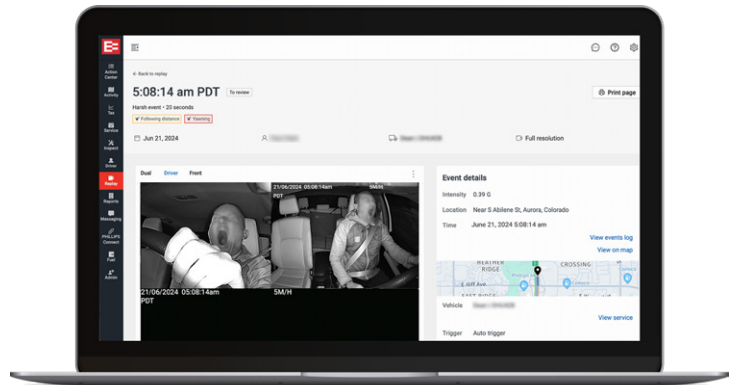

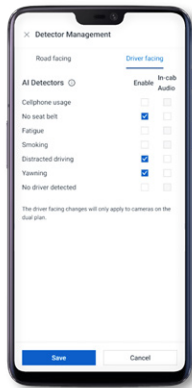

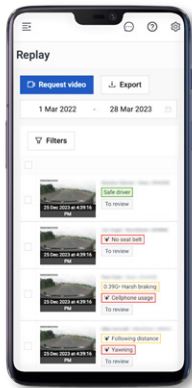

Get insights into previously undetected problem driving behaviors to more effectively coach drivers and reduce accidents.

#### Control And Reduce Costs

Identify areas of risk and optimize fleet usage to avoid increasing insurance premiums, reduce fuel use and extend vehicle life.

#### Protect Your Business

Use high-quality video footage in the event of an accident or other incident to determine liability and resolve insurance claims.

## HIGHLIGHTS

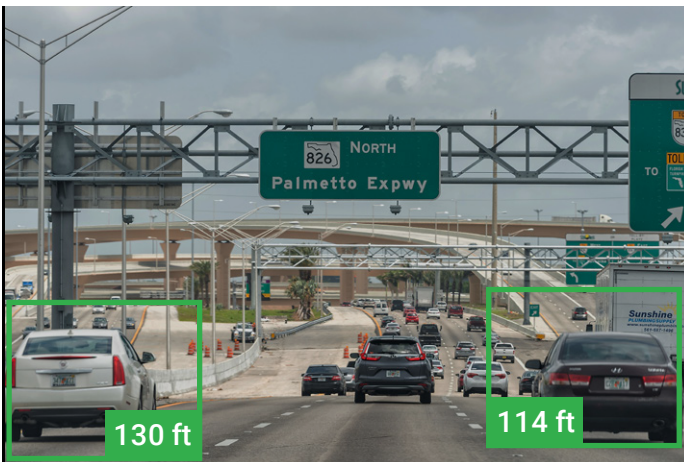

Clarity Edge uses AI models to provide enhanced fleet visibility by detecting various road conditions and driver behaviors.

### ROAD AI

- Following too closely
- Vehicle collision/near miss
- Pedestrian collision/near miss
- Stop sign violation
- Speed sign violation

### DRIVER AI

- Distraction
- Yawning
- Cell phone usage
- Smoking
- Seatbelt unfastened
- Camera lens covered
